

# Jason Patrick Zubiate

(626) 324-7748

[jasonzubiate.com](http://jasonzubiate.com) | [jzubiate@uci.edu](mailto:jzubiate@uci.edu)

## EDUCATION

University of California, Irvine

B.S. in Informatics: Human-Computer Interaction (HCI)

June 2023

## TECHNICAL SKILLS

**Programming Languages:** JavaScript/TypeScript, JSX/TSX, HTML, CSS, Python, C++, Java, R

**Operating Systems:** Windows (10.7, 10.8, 11), Mac (Ventura)

**Concepts:** Human-centered design, agile project management (scrum), social ergonomics, user interface design, prototyping

**Software:** Visual Studio Code, React/React Native, Next.js, Angular, Github, Figma, Jira, Smartlook, Miro

## WORK EXPERIENCE

### Nutripair

UX Designer / Front-End Development Intern | Irvine, CA

June 2022-Present

- Developed and implemented a set of reusable functional components, resulting in the creation of four dynamic web-application pages.
- Utilized React and Next.js framework to seamlessly transition Figma mock-ups into a fully functional web-application.
- Designed and executed API file structure, programmed API calls to both AWS and MongoDB servers

### Starship Technologies

Fleet Attendant | Irvine, CA

January 2023-Present

- Managed daily operations of a fleet of robots, including deployment, end-of-day maintenance, and transportation to delivery areas.
- Maintained the health of robots through repairs, upgrades, troubleshooting, and warehouse inventory management.
- Conducted regular audits to ensure accuracy of warehouse inventory.

## PROJECTS

### Groovehub

Front-End Developer

February 2023

- Developed API requests using Node.js/Express to gather and manipulate music data, including artist, album, and track information, as well as control music playback through the Spotify API.
- Implemented Next.js middleware solution to manage user authentication and access control.
- Configured Recoil state management, enabling seamless playlist and track switching.

### Nutripair Restaurant Portal Capstone

UX Designer / Front-End Developer

April 2022-June 2022

- Wrote a software requirements specification document based upon elicitation meetings with Nutripair development team.
- Constructed use-case models to cover user interactions with system features.
- Designed high-fidelity mockups via Figma for Nutripair's restaurant portal based on provided wireframes.
- Developed static pages for Nutripair's restaurant portal using React.

### Anteater Wellness App

Software Designer / UX/UI Designer

January 2022-March 2022

- Created a comprehensive software requirements specification document to support UCI's Wellness, Health, & Counseling Services in promoting health and wellness among UCI students.
- Conducted elicitation sessions with stakeholders and produced comprehensive software requirements, goal models, use-case diagrams, and domain models.
- Developed high-fidelity user interface mockups for key system features using Figma, providing a visual representation of the intended user experience.
